Dear Jetview Subscribers,

Technology continues to impact the way we live, so what can you expect in the year ahead?

It seems that 2017 will be an exciting year, especially in technology. On the other aspects of our life, it was the year to be confounded, shocked, humbled.

2017 will be the year of the autonomous vehicles that will make a reality of actually quite a few cities around the world, skimmers will be ready and available to more and domain virtual reality will become common and accessible than ever.

The block chain industry is moving into it 8th year.

The passionate believers, the curious, crypto-anarchists, and libertarians have all pretty much shown up. Now, It's time to get the rest of the world interested and excited.

Legendary marketer, Seth Godin, wrote, that when it comes to a person's worldview.

“People don't believe what you tell them. They rarely believe what you show them. They often believe what their friends tell them. They always believe what they tell themselves.”

We would like to wish all of us a great successful 2017 year.

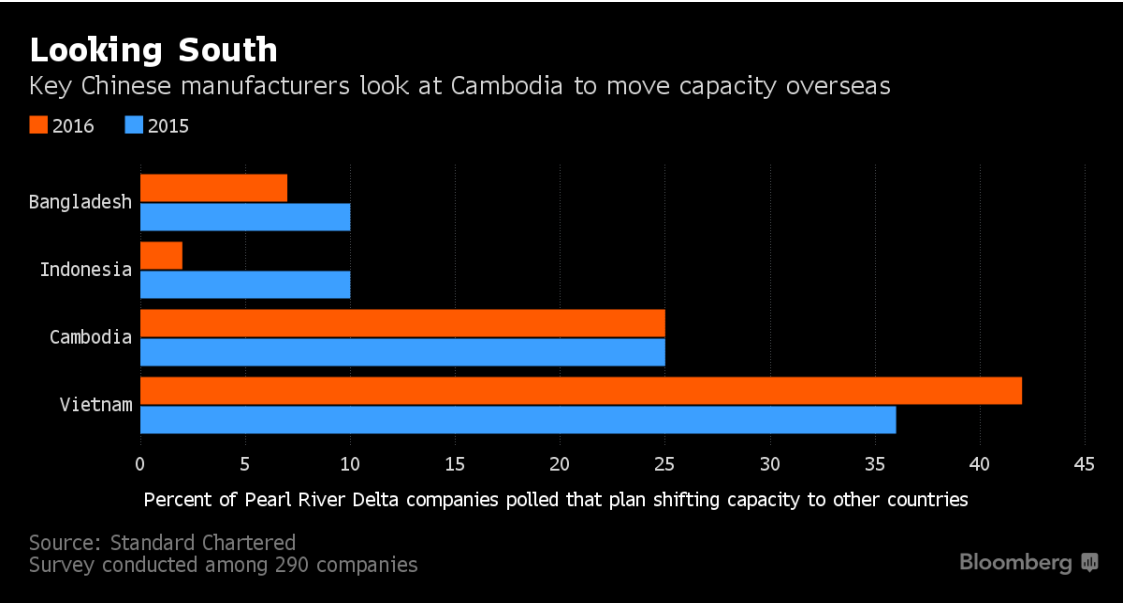

Technology

The Ransom Business Is Booming

Just how lucrative is ransomware ? Very. Symantec gained access to a command-and-control server used by the CryptoDefense malware and got a glimpse of the hackers' haul based on transactions for two Bitcoin addresses the attackers used to receive ransoms.

Technology

2016 in Review: The Year's Best Apps

MORE than four million software programs are available in the Apple and Google app stores, including games, productivity tools and weather apps.

This year, only a few stood out. Some of these apps were exceptional; others were useful or funny or just well designed.
